Polydesign Systems joins the UN Global Compact

Joining the United Nations Global Compact is a significant step for any company committed to corporate social responsibility (CSR) and environmental, social and governance (ESG) strategies. By becoming a member of this initiative, Polydesign joins the very exclusive club of 30 Moroccan companies that are signatories to the UN Global Compact.

This commitment reflects Polydesign's efforts to align its operations with the Sustainable Development Goals and reinforces its historical role as a company with a solid commitment to integrity, sustainability and carbon neutrality in the Tangier Free Zone.

The UN Global Compact will also allow collaboration and knowledge-sharing with other businesses, civil society organizations, and governments to build a more sustainable present and future.

We are deeply convinced of the importance of pioneering and aim to encourage other companies in Morocco to join us on this journey.
